

COMMITTEE ON ENVIRONMENT

HOUSE OF REPRESENTATIVES AMENDMENTS TO H.B. 2426

(Reference to printed bill)

Page 3, line 13, after "site" strike remainder of line; strike line 14, insert

~~"within six months of the effective date of this article, shall"~~

Line 19, strike "49-762" insert "49-762.03"

Page 4, between lines 28 and 29, insert:

"Sec. 4. Section 49-701, Arizona Revised Statutes, is amended to read:

49-701. Definitions

In this chapter, unless the context otherwise requires:

1. "Administratively complete plan" means an application for a solid waste facility plan approval that the department has determined contains each of the components required by statute or rule but that has not undergone technical review or public notice by the department.

2. "Administrator" means the administrator of the United States environmental protection agency.

3. "Closed solid waste facility" means any of the following:

(a) A solid waste facility that ceases storing, treating, processing or receiving for disposal solid waste before the effective date of design and operation rules for that type of facility adopted pursuant to section 49-761.

(b) A public solid waste landfill that meets any of the following criteria:

(i) Ceased receiving solid waste prior to July 1, 1983.

(ii) Ceased receiving solid waste and received at least two feet of cover material prior to January 1, 1986.

(iii) Received approval for closure from the department.

(c) A public composting plant or a public incinerating facility that closed in accordance with an approved plan.

4. "Conditionally exempt small quantity generator waste" means hazardous waste in quantities as defined by rules adopted pursuant to section 49-922.

1           5. "Construction debris" means solid waste derived from the  
2 construction, repair or remodeling of buildings or other structures.

3           6. "County" means:

4           (a) The board of supervisors in the context of the exercise of powers  
5 or duties.

6           (b) The unincorporated areas in the context of area of jurisdiction.

7           7. "Demolition debris" means solid waste derived from the demolition  
8 of buildings or other structures.

9           8. "Discharge" has the same meaning prescribed in section 49-201.

10          9. "Existing solid waste facility" means a solid waste facility that  
11 begins construction or is in operation on the effective date of the design  
12 and operation rules adopted by the director pursuant to section 49-761 for  
13 that type of solid waste facility.

14          10. "Facility plan" means any design or operating plan for a solid  
15 waste facility or group of solid waste facilities.

16          11. "40 C.F.R. part 257" means 40 Code of Federal Regulations part 257  
17 in effect on May 1, 2004.

18          12. "40 C.F.R. part 258" means 40 Code of Federal Regulations part 258  
19 in effect on May 1, 2004.

20          13. "Household hazardous waste" means solid waste as described in 40  
21 Code of Federal Regulations section 261.4(b)(1) as incorporated by reference  
22 in the rules adopted pursuant to chapter 5 of this title.

23          14. "Household waste" means any solid waste including garbage, rubbish  
24 and sanitary waste from septic tanks that is generated from households  
25 including single and multiple family residences, hotels and motels,  
26 bunkhouses, ranger stations, crew quarters, campgrounds, picnic grounds and  
27 day use recreation areas, not including construction debris, landscaping  
28 rubble or demolition debris.

29          15. "Inert material":

30           (a) Means material that satisfies all of the following conditions:

31           (i) Is not flammable.

32           (ii) Will not decompose.

1 (iii) Will not leach substances in concentrations that exceed  
2 applicable aquifer water quality standards prescribed by section 49-201,  
3 paragraph 20 when subjected to a water leach test that is designed to  
4 approximate natural infiltrating waters.

5 (b) Includes concrete, asphaltic pavement, brick, rock, gravel, sand,  
6 soil and metal, if used as reinforcement in concrete AND GLASS IF RECYCLED OR  
7 PUT TO ANOTHER BENEFICIAL USE APPROVED IN WRITING BY THE DIRECTOR, but does  
8 not include special waste, hazardous waste, ~~glass~~ or other metal.

9 16. "Land disposal" means placement of solid waste in or on land.

10 17. "Landscaping rubble" means material that is derived from  
11 landscaping or reclamation activities and that may contain inert material and  
12 no more than ten per cent by volume of vegetative waste.

13 18. "Management agency" means any person responsible for the day-to-day  
14 operation, maintenance and management of a particular public facility or  
15 group of public facilities.

16 19. "Medical waste" means any solid waste which is generated in the  
17 diagnosis, treatment or immunization of a human being or animal or in any  
18 research relating to that diagnosis, treatment or immunization, or in the  
19 production or testing of biologicals, and includes discarded drugs but does  
20 not include hazardous waste as defined in section 49-921 other than  
21 conditionally exempt small quantity generator waste.

22 20. "Municipal solid waste landfill" means any solid waste landfill  
23 that accepts household waste, household hazardous waste or conditionally  
24 exempt small quantity generator waste.

25 21. "New solid waste facility" means a solid waste facility that begins  
26 construction or operation after the effective date of design and operating  
27 rules that are adopted pursuant to section 49-761 for that type of solid  
28 waste facility.

29 22. "On site" means the same or geographically contiguous property that  
30 may be divided by public or private right-of-way if the entrance and exit  
31 between the properties are at a crossroads intersection and access is by  
32 crossing the right-of-way and not by traveling along the right-of-way.

1 Noncontiguous properties that are owned by the same person and connected by a  
2 right-of-way that is controlled by that person and to which the public does  
3 not have access are deemed on site property. Noncontiguous properties that  
4 are owned or operated by the same person regardless of right-of-way control  
5 are also deemed on site property.

6 23. "Person" means any public or private corporation, company,  
7 partnership, firm, association or society of persons, the federal government  
8 and any of its departments or agencies, this state or any of its agencies,  
9 departments, political subdivisions, counties, towns or municipal  
10 corporations, as well as a natural person.

11 24. "Process" or "processing" means the reduction, separation,  
12 recovery, conversion or recycling of solid waste.

13 25. "Public solid waste facility" means a transfer facility and any  
14 site owned, operated or utilized by any person for the storage, processing,  
15 treatment or disposal of solid waste that is not generated on site.

16 26. "Recycling facility" means a solid waste facility that is owned,  
17 operated or used for the storage, treatment or processing of recyclable solid  
18 waste and that handles wastes that have a significant adverse effect on the  
19 environment.

20 27. "Salvaging" means the removal of solid waste from a solid waste  
21 facility with the permission and in accordance with rules or ordinances of  
22 the management agency for purposes of productive reuse.

23 28. "Scavenging" means the unauthorized removal of solid waste from a  
24 solid waste facility.

25 29. "Solid waste facility" means a transfer facility and any site  
26 owned, operated or utilized by any person for the storage, processing,  
27 treatment or disposal of solid waste, conditionally exempt small quantity  
28 generator waste or household hazardous waste but does not include the  
29 following:

30 (a) A site at which less than one ton of solid waste that is not  
31 household waste, household hazardous waste, conditionally exempt small  
32 quantity generator waste, medical waste or special waste and that was

1 generated on site is stored, processed, treated or disposed in compliance  
2 with section 49-762.07, subsection F.

3 (b) A site at which solid waste that was generated on site is stored  
4 for ninety days or less.

5 (c) A site at which nonputrescible solid waste that was generated on  
6 site in amounts of less than one thousand kilograms per month per type of  
7 nonputrescible solid waste is stored and contained for one hundred eighty  
8 days or less.

9 (d) A site that stores, treats or processes paper, glass, wood,  
10 cardboard, household textiles, scrap metal, plastic, vegetative waste,  
11 aluminum, steel or other recyclable material and that is not a waste tire  
12 facility, a transfer facility or a recycling facility.

13 (e) A site where sludge from a wastewater treatment facility is  
14 applied to the land as a fertilizer or beneficial soil amendment in  
15 accordance with sludge application requirements.

16 (f) A closed solid waste facility.

17 (g) A solid waste landfill that is performing or has completed  
18 postclosure care before July 1, 1996 in accordance with an approved  
19 postclosure plan.

20 (h) A closed solid waste landfill performing a onetime removal of  
21 solid waste from the closed solid waste landfill, if the operator provides a  
22 written notice that describes the removal project to the department within  
23 thirty days after completion of the removal project.

24 (i) A site where solid waste generated in street sweeping activities  
25 is stored, processed or treated prior to disposal at a solid waste facility  
26 authorized under this chapter.

27 (j) A site where solid waste generated at either a drinking water  
28 treatment facility or a wastewater treatment facility is stored, processed,  
29 or treated on site prior to disposal at a solid waste facility authorized  
30 under this chapter, and any discharge is regulated pursuant to chapter 2,  
31 article 3 of this title.

1           (k) A closed solid waste landfill where development activities occur  
2           on the property or where excavation or removal of solid waste is performed  
3           for maintenance and repair provided the following conditions are met:

4           (i) When the project is completed there will not be an increase in  
5           leachate that would result in a discharge.

6           (ii) When the project is completed the concentration of methane gas  
7           will not exceed twenty-five per cent of the lower explosive limit in on-site  
8           structures, or the concentration of methane gas will not exceed the lower  
9           explosive limit at the property line.

10          (iii) Protection has been provided to prevent remaining waste from  
11          causing any vector, odor, litter or other environmental nuisance.

12          (iv) The operator provides a notice to the department containing the  
13          information required by section 49-762.07, subsection A, paragraphs 1, 2 and  
14          5 and a brief description of the project.

15          (l) Agricultural on-site disposal as provided in section 49-766.

16          (m) The use, storage, treatment or disposal of by-products of  
17          regulated agricultural activities as defined in section 49-201 and that are  
18          subject to best management practices pursuant to section 49-247 or  
19          by-products of livestock, range livestock and poultry as defined in section  
20          3-1201, pesticide containers that are regulated pursuant to title 3, chapter  
21          2, article 6 or other agricultural crop residues.

22          (n) Household hazardous waste collection events held at a temporary  
23          site for not more than six days in any calendar quarter.

24          (o) Wastewater treatment facilities as defined in section 49-1201.

25          (p) An on-site single family household waste composting facility.

26          (q) A site at which five hundred or fewer waste tires are stored.

27          (r) A site at which mining industry off-road waste tires are stored or  
28          are disposed of as prescribed by rules in effect on February 1, 1996, until  
29          the director by rule determines that on-site recycling methods exist that are  
30          technically feasible and economically practical.

1           (s) A site at which underground piping, conduit, pipe covering or  
2 similar structures are abandoned in place in accordance with applicable state  
3 and federal laws.

4           30. "Solid waste landfill" means a facility, area of land or excavation  
5 in which solid wastes are placed for permanent disposal. Solid waste  
6 landfill does not include a land application unit, surface impoundment,  
7 injection well, compost pile or waste pile or an area containing ash from the  
8 on-site combustion of coal that does not contain household waste, household  
9 hazardous waste or conditionally exempt small quantity generator waste.

10           31. "Solid waste management" means the systematic administration of  
11 activities which provide for the collection, source separation, storage,  
12 transportation, transfer, processing, treatment or disposal of solid waste in  
13 a manner that protects public health and safety and the environment and  
14 prevents and abates environmental nuisances.

15           32. "Solid waste management plan" means the plan which is adopted  
16 pursuant to section 49-721 and which provides guidelines for the collection,  
17 source separation, storage, transportation, processing, treatment,  
18 reclamation and disposal of solid waste in a manner that protects public  
19 health and safety and the environment and prevents and abates environmental  
20 nuisances.

21           33. "Storage" means the holding of solid waste.

22           34. "Transfer facility" means a site that is owned, operated or used by  
23 any person for the rehandling or storage for ninety days or less of solid  
24 waste that was generated off site for the primary purpose of transporting  
25 that solid waste. Transfer facility includes those facilities that include  
26 significant solid waste transfer activities that warrant the facility's  
27 regulation as a transfer facility.

28           35. "Treatment" means any method, technique or process used to change  
29 the physical, chemical or biological character of solid waste so as to render  
30 that waste safer for transport, amenable for processing, amenable for storage  
31 or reduced in volume.

1           36. "Vegetative waste" means waste derived from plants, including tree  
2 limbs and branches, stumps, grass clippings and other waste plant  
3 material. Vegetative waste does not include processed lumber, paper,  
4 cardboard and other manufactured products that are derived from plant  
5 material.

6           37. "Waste pile" means any noncontainerized accumulation of solid,  
7 nonflowing waste that is used for treatment or storage.

8           38. "Waste tire" does not include tires used for agricultural purposes  
9 as bumpers on agricultural equipment or as ballast to maintain covers at an  
10 agricultural site, or any tire disposed of using any of the methods in  
11 section 44-1304, subsection D, paragraphs 1, 2, 3, 5 through 8 and 11 and  
12 means any of the following:

13           (a) A tire that is no longer suitable for its original intended  
14 purpose because of wear, damage or defect.

15           (b) A tire that is removed from a motor vehicle and is retained for  
16 further use.

17           (c) A tire that has been chopped or shredded.

18           39. "Waste tire facility" means a solid waste facility at which five  
19 thousand or more waste tires are stored outdoors on any day."
